

Meetings & Incentives

MICE for Kids Programme

MICE for Kids engages children in experiential activities in a fun, positive and nurturing environment to enable them to build character and life skills necessary for self-empowerment. Values of focus, self-confidence, resilience, compassion, perseverance, dedication and motivation will be fostered through group and individual hands-on activities and dynamic experiential challenges, held indoors or outdoors. The events and activities can be customised according to specific themes or needs.

The programme is a great way to connect with your staff and their families, confirming you as a caring employer that places priority on staff welfare. Introducing this programme will boost staff morale, and therefore productivity and effectiveness. All round benefits for both you and your employees!

The Objectives of the Programme

- √ Learning to express self
- √ Building self-esteem and confidence
- √ Appreciating and valuing differences
- √ Facing fears by accepting challenges
- √ Working as a team
