

Building with a purpose

PHUKET ADVENTURE SERIES

A group of insurgents has infiltrated a small island off the coast of Phuket....
The mission: Your combat unit has to plan an amphibious assault to ambush them.

Before the mission, each combat unit will be briefed in full military style, complete with intelligence reports, satellite pictures, and a set of engagement rules. After that, it's up to you and your unit to formulate a strategy to intercept and eliminate the threat without being captured or suffering casualties!

Will it be a victorious battle? Or a failed mission that ends in 'bloodshed'?
Your fate lies entirely in your hands, and that of your teammates!

This simulated mission is not your usual teambuilding programme.

Apart from having outrageous fun, the exhilarating out-in-the-field experience demands tactical planning, hones communication and problem solving skills, challenges each team member to adapt to changing circumstances with ingenuity, and develops leadership qualities. These skills are highly applicable to daily work situations. The common goal of combating the 'enemy' also creates team cohesion.

Package includes:

- Accommodation at a 4-Star or 5-Star Hotel in Phuket
- Teambuilding activities customized to the company's learning objectives
- All meals, gala dinner and transfers
- A professional and experienced team of facilitators and trainers

Focus on the fun, and leave the organizing to us!
